Dead Days-

there's a lot of things to say
that won't make it go away
if i take off my face
would i feel alive again?
there's a lot of things to say
that won't make it go away
if my eyes turn to rain
would i feel alive?
would i feel alive?
if i turn off my brain
will it make it go away?
computer keep me safe
cause i feel so wrong
i feel so wrong today

this is where it starts
this is where it starts

Divider-

in the lake of fire
we will reconcile
what do we have to see
how must history read
this thing must die out
there's no other way
if you look around
at the possibilities

divider
divider
divider
devise this
divider _ deeper than deep space
divide our skin
divider _ deeper than deep space
our love
our love can't erase

these things meant to be
linger in times sea
deeper than deep space
our love can't erase
even if we fail
we will still prevail
we've reached the final hour

Lost in Love-

i hurt you, i know
a little devil told me so
at my throat i hold a knife
as i sabotage my life

are we lost in love?
i feel all tangled up
are we lost in love?
or are we lost in lies?
are we lost in love?
as i stare into your eyes
are we lost in love?
or are we lost in lies?

it takes me where it wants to go
shows me things i need to know
theres a place that burns so bright
its darkness gathers all the light..

Every Night-

you run from me
but you're really not that far

stay up, fight
stay up, fight
stay up, fight
every night

its ok
its ok to feel this way
its ok
its alright to feel this way

stay up all night long
drinking your blood
fuelling this song
sucking your love
filling my voids

today is the same
and
again i'm to blame

Billions of Stars-

night swallows
milky glow
billions of stars
surround glimpses of mars

am i dreaming?
i am dreaming

Already Dead-

put this inside your head
don't let it go let it vibrate
wake the fuck up, wake the fuck up
this is wrong, i can tell

feels like i'm already dead
use me, distribute
distribute me
like i'm already dead
use me, distribute my face
through time and space

brain cells fracticulate
a new mind we create
everywhere lies
till we open up our eyes

Stuck in Time-

a voice inside my head
two thousand lies you said
a path in front of me
one road to destiny

otherwise you're tearing me apart
go back and listen from the start
otherwise you're tearing me apart
listen to what beats my heart

losing you
burns a hole
losing you
twists my soul

insides come out of me
fill up these empty seas
a note, a word, a line
keeps me here stuck in time

The Virus-

deep freeze my mind
destroy my face
delete my eyes
delete this place

ill let you destroy me
after all I'm your disease
ill let you destroy me
drain my heart, fill these seas

the virus inside her
that is me
the spider inside her
the virus
that is me

Planetary Disposition-

we are stuck in here
we are stuck in fear

Yours-

love is
somewhere
love is
all there is
to somethings
to someone
to somewhere

take it
fake it
mistake it
i am yours

love is
something
to someone
to somewhere
love is
not the cure
for somethings
for somewhere

19521 Chaos-

this evolution of the past lines up with another dimension
eat outside your face determine clockwork
drowning suffocate swallow eyes

now i am..

nothing to nothing
